Njoro, Kenya

SKILLS

JavaScript (ES6, React, Node.js)
Ruby(Ruby on Rails)
HTML/ CSS
Unity(c#)
Python (Django)
SQL (PostgreSQL, MySQL)
G-Code programming

CAREER OBJECTIVE

I am a passionate frontend engineer. I am apt in debugging and solving problems, designing solutions,project management and reporting, product development and research.Throughout my career and study as a software developer I've focused on developing scaleable and well documented code. I enjoy working collaboratively but can also run with projects on my own. I am excited about the prospect of joining a product-driven company.

WORK EXPERIENCE

Front End Developer

Freelance

Feb 2021 - May 2022 / Nairobi, Kenya

- Completed multiple rigorous tasks in building personal and company websites for clients on the upwork freelance platform and through personal branding.
- Created a Bible Trivia web app MVP to utilizing Bible APIs to encourage readers to interact more with the Bible in a fun way.
- Tested software for bugs and operating speed, fixing bugs and documenting processes to increase efficiency by 18%
- Built RESTful APIs that served data to the JavaScript front-end based on dynamically chosen user inputs that handled over thousands of concurrent users.

Game Developer

Indie Games

June 2020 - April 2022 / Nairobi, Kenya

- Worked on iOS and Android games using Unity(c#), visual studio and eclipse for coding, and github for version control.
- Implemented 3D sound engines and sound effect.
